

Live and learn in Bulgaria

Intercultural communication seminar for international students
and Erasmus exchange students (free of charge)

16. November 2010

Starting at 8 pm in „Vlaikova” cinema, 11 Ivan Asen II str.

It is a big challenge to live and learn in a foreign country!

International students in Bulgaria encounter new and unfamiliar situations that influence their understanding about the local people and the country. What Bulgarians consider as *normal* and *self-evident* is often *different* and *exotic* for international students. Sometimes even *disturbing*. The same is true for Bulgarian students when communicating with international fellow students.

The different understandings about the surrounding world and the notion of *normal* behaviour are to a great extent shaped by one's cultural background. Just like many of the communication conflicts between international students and Bulgarians...

You are kindly invited to participate in a free-of-charge intercultural communication seminar at 8 pm on the 16th of November 2010. After 10 pm the discussion is going to continue over a drink in the 'VLKV' club.

When: 16.11.2010, 8-10 pm

Where: ‚Vlaikova’ cinema, 11 Ivan Assen II str.
