

**University of Ruse,
Bulgaria**

Dear Erasmus partner,

We are glad to invite the students from your institution to take part in a new opportunity – International Summer Program for Internship within Erasmus +, Key action 1, that will be carried out at the Transport Faculty of the University of Ruse, Bulgaria in 2023 (including Summer 2023) and each subsequent year.

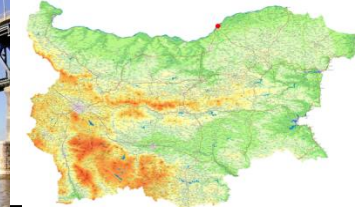

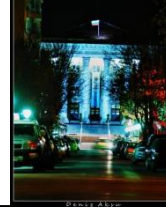

The activities of the University of Ruse to create and disseminate knowledge and ensure innovation and research are to be extended in the summer time as well.

Based upon the experience of the University of Ruse to work in partnership with the industry enterprises, this institution is able to offer an international internship for incoming Erasmus students at the University laboratories, donated by these companies. This kind of students' mobility should also be seen as an opportunity for cultural enrichment. The international internship will aim at: improving and upgrading the practical skills of the students; supporting the scientific research of Bachelor, Master and PhD students. The financial support for this mobility shall be covered by the Erasmus budget of the sending university institution.
